

SERIES 1200

STANDARD

DOUBLE HUNG WINDOW

Our Series 1200 Standard Double Hung Replacement Window provides a balance of low maintenance and aesthetic appeal offered at a modest price. The 1200 offers the durability of vinyl, the style of a beveled profile and the function of state of the art hardware without a high cost to you. These features make the 1200 Double Hung both a practical and an affordable window.

FRAME

- Fusion welded vinyl construction is strong and durable. Frame maintains integrity, which results in a more air tight window. Vinyl will not rot, peel, flake or corrode, therefore never needs painting.
- Beveled exterior profile is aesthetically pleasing and creates curbside appeal.
- 3¼" frame depth for easy blindstop replacement.
- Head expander and sill angle covers gaps between window and opening at head and sill.

SASH

- Tilt top and bottom sashes for easy cleaning from inside the home.
- Interlocking meet rails create a virtually weather tight seal between the sashes, helping to eliminate drafts.

WEATHERSTRIPPING

- Double weatherstripping helps eliminate air, water and noise infiltration.

GLASS

- 5/8" insulated glass for comfort and energy efficiency.
- Optional LoE² glass for the ultimate in year-round comfort and energy savings.
- Warm Edge Intercept™ spacer reduces condensation, stress cracks and seal failures.

HARDWARE

- Spiral balances are reliable and easy to replace.
- Cam type lock(s) and keeper(s) draw meet rails together for a tighter seal.

SCREEN

- Roll form half screen for natural ventilation. Optional full screen available.

LIFETIME WARRANTY
